**Dear Hiring Manager,  
NYC City Government**

I am writing to express my interest in the Data Scientist role at NYC City Government. With over four years of experience in data analytics and a Master's degree in Data Science, I am eager to contribute my skills to support NYC's data-driven initiatives.

At Deloitte, I developed predictive models, analyzed complex datasets, and built data visualizations that informed strategic decisions. My work earned recognition for its innovation and client focus, and I believe these skills align well with the data science needs of NYC.

During my time at Rutgers, I honed my expertise in advanced analytics and machine learning, completing projects that applied these skills to real-world challenges. My proficiency in Python, R, and SQL, along with experience in ETL processes, positions me to effectively contribute to the city's mission of enhancing public services.

I am excited about the opportunity to bring my data science expertise to NYC City Government and support your mission. I look forward to discussing how my background aligns with your needs.

Thank you for your time and consideration.

**Sincerely,  
Ganesh Raj K**
